

Concrete Pave Stones
DecoraStone™

PAVE STONE®

IMPROVING
YOUR
LANDSCAPE™

DecoraStone™

A worldwide favorite for many years, DecoraStone™ combines two distinct shapes in one paver for a classically elegant pattern design. Timeless in its appearance and equally attractive in contemporary or traditional settings, DecoraStone™ creates a beautiful, durable and virtually maintenance-free surface for a wide array of paving projects. DecoraStone™ can be installed in a variety of patterns, such as runner, parquet or herringbone, yet it maintains the same overall surface design. The DecoraStone™ Edger provides a finished straight edge to DecoraStone™ applications. This reduces cutting and adds speed to the installation process for a pristine finish.

COMPOSITION AND MANUFACTURE

DecoraStone™ is made from a "no slump" concrete mix. Made under extreme pressure and high frequency vibrations, DecoraStone™ has a compressive strength greater than 8000psi, a water absorption maximum of 5% and will meet or exceed ASTM C-936 and freeze-thaw testing per Section 8 of ASTM C-67.

INSTALLATION

1. Excavate unsuitable, unstable or unconsolidated subgrade material and compact the area which has been cleared. Backfill and level with dense graded aggregate suitable for base material (typically 4-6 in. of compacted base for light vehicular and pedestrian traffic) or as otherwise directed by Site Engineer/Architect/Landscape Architect.
2. Place bedding course of washed sand conforming to the grading requirements of ASTM C-33 to a uniform depth of 1-1 1/2 in. (25-38mm) screeded to the grade and profile required.
3. Install DecoraStone™ with joints approximately 1/8 in. (3mm).
4. Where required, cut pave stones with an approved cutting device to fit accurately, neatly and without damaged edges.
5. Tamp pave stones with a plate compactor, uniformly level, true to grade and free of movement.
6. Spread sand to 1/8 in. (3 mm) thickness over entire paving area.
7. Make one more pass with plate compactor to fill joints with sand.

Complete installation & specification details are available by contacting your Pavestone Sales Representative.

Note: Colors are shown as accurately as possible in brochures & samples, but due to the nature of the product, regional color preferences and variables in print reproduction, colors may not match exactly. For best results in maintaining color consistency, pave stones must be installed from several cubes at a time. Efflorescence, a whitish, powder-like deposit, may appear on concrete pave stones. This is a natural occurrence in any concrete product and will usually wear off over time.

Runner Bond Pattern w/DecoraStone™ Edger

APPLICATIONS

General Road Construction • Parking Lots • Gas Stations • Driveways • Patios • Highway Ramps
Highway Rest Areas • Bridge Underpasses • Entrance Areas • Sidewalks • Terraces • Garden Pathways
Pool Decks • Beach Promenades • Pedestrian Malls
Roof Gardens • Street Medians

PRODUCT INFORMATION

DecoraStone™ is available in 1 size and 2 thicknesses, 60mm = 2 3/8" and 80mm = 3 1/8"

DecoraStone™

Nominal Dimensions	5 13/16" W x 8 15/16" L 137mm x 227mm	
Height/Thickness:	60mm = 2 3/8"	80mm = 3 1/8"
Wt./Stone	8 lbs.	10.2 lbs.
Stones/Pallet	350	280
Approx. Wt./Pallet	2,800 lbs.	2,880 lbs.
Sq. ft./Pallet	100	80
Product Number	156	158

DecoraStone™ Edger is available in 1 size and 1 thickness, 60mm = 2 3/8" Minimum quantities required.

DecoraStone™ Edger

Nominal Dimensions	4 3/8" W x 8 15/16" L 112mm x 227mm	
Wt./Stone	7.0 lbs.	Stones/Pallet 400
Approx. Wt./Pallet	2,800 lbs.	Sq. ft./Pallet 100
Product Number	157	

*Fractional dimensions are nominal.
